**PROJECT:**           **NEW TWO STOREY RESIDENTIAL BUILDING:  
CANNINGTON AFFORDABLE HOUSING FOR SENIORS  
100 McKay Street, Cannington, Ontario**

**PROJECT NO:**       **16-16**

**SUBJECT:**           **RFI NO: 9**

**DATE:**              **August 20, 2018**

---

**Area/Description/Subject:**

Mechanical

**Reference Drawings/Specification No:**

Mechanical Drawings/Specifications

**Information Requested:**

After reviewing the mechanical drawings please clarify the following:

Provide gas pipe layout and details for all fixtures/equipment that may require gas piping & connections, as mechanical drawings only show incoming gas.

Please remove all notes on drawings that do not apply to this project, (ie; Demolition, x-ray/scanning)

**Responses:**

Drawing M-1 details the gas connection to the hot water tanks.

Note 6 on M-1 indicates that a 1" gas line is to be provided for the main floor fire places/dryers and a 1" gas line is to be provided for the 2<sup>nd</sup> floor fire places/dryers.

We won't detail this further on the tender set of drawings.

END
